Structure of our courses

ACCA Progression rules

Progression Rules (Applied Level)

- The current progression rule is that all Applied Knowledge and Skills papers **must be attempted or being attempted** before a student can commence the Strategic Professional Papers.
- There are no time limits for passing the Applied Knowledge and Applied Skills exams (generally) may be some rules to consider at the Applied Knowledge exams.

Progression Rules (Strategic Professional (SP) Level)

Under the new rules a seven year time limit has been introduced at the Strategic Professional level.

- Students will have seven years to pass the exams at SP level.
- If a student does not pass all the SP level exams within seven years, they will lose any passes that were achieved more than seven years ago and will need to retake.
- The seven year time limit starts when a student passes his/her first SP level exam.

What will I have if I only sit the Applied Skills exams?

Advanced Diploma and BSc (Hons) degree

What students can achieve

- Students can gain the Advanced Diploma in Accounting and Business when they pass all the Applied Knowledge and Applied Skills exams, and complete the Ethics and Professional Skills module.
- The Advanced Diploma in Accounting and Business is benchmarked at a UK Bachelor's university degree and students can also gain a world renowned university degree at the same time as studying for the ACCA Qualification.
- ACCA have a partnership with University of London, which means students can gain a BSc (Hons) degree in Applied Accounting while they work towards completing their Applied Skills exams.

Ethics and Professional skills

[Ethics and professional skills | ACCA](#)
[Qualification | Students | ACCA Global](#)

Ethics and Professional Skills

- Introduces students to the full spectrum of advanced ethical and professional skills
- Exposes them to realistic business situations
- Teaches skills like commercial awareness, problem solving, leadership, ethical judgement, teamwork and personal effectiveness

DURATION:
Approximately 20 hours

Fee:
£60

When to sit the Ethics and Professional Skills?

To take maximum advantage of the support provided by the module, ACCA recommends you complete it **before** attempting any exams at Strategic Professional, but as close as you can to the completion of your Applied Skills examinations.

Practical Experience Requirement

PER Practical experience | ACCA Global

- To complete PER you'll need to achieve 36 months of supervised experience in a relevant accounting or finance role and complete nine performance objectives (all five Essentials and four Technical objectives).
- Many types of experience count towards your PER. Work completed before registering for the ACCA can also count provided your previous supervisor will sign-off your achievements from that time. – you don't have to achieve 36 months with the same employer
 - Before, during or after you sit your ACCA exams
 - Any industry, sector or country
 - Part-time, temporary or voluntary work
 - Work before registering with ACCA as a student.
 - Internships and volunteering

PER – Approved employer

- However, if you join an ACCA approved employer with training development approval at Gold or Platinum level then you can potentially claim performance objective exemption. In that case, you must still complete 36-months of experience before you become an ACCA member.
